The changing nature of ageing

‘A longer life provides humans with an opportunity to examine their lives in retrospect, to correct some of their mistakes, to get closer to the truth and to achieve a different understanding of the sense and value of their actions.’

- **Article 10:**

  ‘the potential of older persons is a powerful basis for future development. This enables society to rely increasingly on the skills, experience and wisdom of older persons, not only to take the lead in their own betterment but also to participate actively in that of society as a whole.’
